FACTS AND CONJECTURES.

Saturday's *Examiner* states that the Vanderbilts are preparing to close a deal for the purchase of the greater part of the tract of graded and filled in land at North Beach in San Francisco, belonging to the Fair estate, upon which the ex-Senator expended nearly \$2,000,000, during the last years of his life.

For months stories have been in circulation of the intentions of the Vanderbilts to invest in railroad properties on this side of the continent, with the idea of completing a road entirely under their control from New York to San Francisco, and the proposed deal would seem to verify the truthfulness of the rumor. It was well known that Mr. Fair made the investment and improvements with the idea that at some future time the property would become valuable as a terminus for a trans-continental railroad, it being situated opposite Sausalito, the natural ferrying point on the bay. But whatever may have been Mr. Fair's idea, he probably never dreamed that his daughter would marry young Vanderbilt and so pave the way to carrying out the very project he more or less vaguely conceived; and yet that is just what has happened, and the union of the two families has done much to make the Vanderbilt plan of a Vanderbilt railroad from east to west a reality.

The presence of Hermann Oelrichs in San Francisco for the last few weeks is significant, as the only reason he gives for his visit is "business."

The JOURNAL is neither a prophet nor the son of a prophet, but it will venture the prediction that the Vanderbilt plan for connection with Pacific tide water in California is by the Union Pacific and the Oregon Short Line, with a branch from the latter somewhere near Alturas, in northern California, down the Pitt River valley into Siskiyou, and from thence by a new road or perhaps connection with the old Donahoe system, to the terminal point. This would seem the logical conclusion, as the projectors at present hold a controlling interest in the first two mentioned roads. It is not unlikely, moreover, that our conjecture, if correct, solves the mystery of the N.-C.-O. northern terminus, and that the extension is headed for the junction of the Oregon Short Line and the southwestern branch, wherever that may be. According to the route we have outlined, the Vanderbilt road would not touch Nevada, except possibly for a few miles in the extreme northwestern part of Washoe county. It will not benefit Nevada, or Reno, unless something is done as suggested a short time ago by the JOURNAL, to make this the great stock center of the State, which could be done by the managers of the Central Pacific and which it would be to their interest to do, by making Reno a compulsory point in the shipment of stock east and west.

WILL IT BE EQUALLY CAUDIL?

The Salt Lake *Tribune* in comment upon the probable issues of the next presidential campaign and the subordinate place it predicts that silver will occupy in the national platform says:

"When it is all completed and silver occupies only a perfunctory place in the platform we shall see the Salt Lake *Herald*, the *Boise Capital*, the *Anaconda Standard*, the *Kenos Journal* and every other copious wapper over the back-lining of the Salt Lake *Tribune*, indorsing fully the platform and ticket, no matter how the platform may read, no matter who may be named on the ticket."

Speaking for the JOURNAL, we will remark that if silver occupied only a "perfunctory" place in the Democratic platform, and the ticket is headed by a candidate, not known to be fully, unqualifiedly and unconditionally committed to the principle of bimetalism, and to carry out that doctrine, the nominee will not receive the support of this paper. We believe we can as safely promise things agree not to get sleigh riding on the Fourth of July unless the streets of Reno are covered with six feet of snow on that day. The platform of 1896, so far as the financial question is concerned, is as certain to be reindorsed in 1900 as any future event can be foretold. A cause that received more than six and a half millions of votes in 1896 cannot be considered dead when the principle is reasserted four years later by the same great national party. Now, then, the JOURNAL has stated its position fairly and squarely in the event of the very session of the *Tribune's* prophecy.

Will the *Tribune* be equally caudil in stating what its position will be in case the JOURNAL's predictions prove correct? Will it acknowledge its error, in publishing the obituary of a living cause and issue, and, dropping out of the mourners' ranks, come back into the procession of the friends of the supposed deceased, and assist in bearing it to victory instead of the tomb? If it will make this conditional promise, the JOURNAL will take pleasure in acknowledging its error and injustice in ascribing as the probable cause of the *Tribune's* change that its editor's hatred of Democracy was greater than his love for silver.

THERE is a United States Census Marshal to be appointed for Nevada, but we have heard of no applicants for the position. It is a Presidential appointment and would naturally fall to a member of the G. O. P. Other influences, however, may be brought to bear, as in other federal appointments for Nevada, and the prize awarded to some Silver party man, who was left out in the State institutions' shuffling deal. It is safe to infer, however, that the matter isn't being overlooked and that still hunts are being made on both sides for the place. The JOURNAL has a candidate but isn't going to name him until some other fellow is appointed.

SOME of our State exchanges make the statement that Bland's career as a silver champion commenced while he was a resident of Nevada. That is a mistake. When Bland lived in Nevada silver needed no champion, for it was at a premium over gold. Mr. Bland left this State long before the whitewash was demoralized, and his devotion to bimetalism was inspired by no local cause or interest, but upon the broad principle of sound national finance and a metallic currency. He would have been as ardent a double standard advocate if he never lived a day in Nevada.

SENATOR CHANDLER, who has a reputation for talking against things supported by his party, but always voting with the party, has an acute attack of anti-trustophobia just now. Chandler talks and writes against trusts, just as though he were a good Democrat, but there is no reason to expect that he will vote against any measure designed by the trusts which may come before the Senate at the next session.

MARK HANNA says that McKinley and Hubert will lead the Republican in the next Presidential campaign, but that Bryan will not lead the Democratic opposition. This wish is rather to the latter thought, and the thought has a very poor prophetic daddy.

A REPUBLICAN plank against trusts is as old as 1888 and Republican protection of trusts is as old as the trust themselves.

BREVITIES.

A number of I. O. O. F. men came in on the V. & T. last evening to attend the meeting of the Grand Lodge which will be held to day.

For the first time in two years there was no faro game running in Tuscarora. The people are probably too busy there to monkey with the tiger.

Prof. R. D. Jackson has commenced working the old English Mill tailing by an amalgamation process. Away, away the tailings to be worth the experiment.

A Thousand Tongues.

Could not express the capture of Anna E. Springer, 1125 Howard St., Philadelphia, Pa., when she found the Dr. King's New Discovery for consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure, "It soon removed pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praise throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and \$1.00. Trial bottles free at S. J. Hodgkinson's Drug Store; every bottle guaranteed.

She Didn't Like the Job.

"I used to work for a collection agency in one of the northern cities," said a lady perfumery drummer, "and my experience was tolerably exciting. My duty was to sit at a roll top desk in the office and impersonate the proprietor. Light work, did you say? Just you wait. All day long men would come in red eyed to lick the boss. 'Where's the fellow that sends out these blackmailing letters?' was the usual salutation. Then I would smile sweetly and say: 'I'm the proprietress. What can I do for you?' At that the visitor would look dazed, mutter things under his breath and walk off.

"Well, things went along all right for nearly a month. Then one day a little, wiry chap walked in carrying a black cane. 'Where's the boss?' he said. I gave the usual fairy story. 'Don't believe a word of it,' he replied, 'still I can't beat a woman.' He thought awhile, and something in his eye made me feel creepy. 'I'll have to take it out on the fixtures,' he said finally, and, upon my word, he broke every blessed thing in the shop. He did it quickly and systematically, and you never saw such an awful ruin! As a wind up he broke the chandelier and bade me a polite good day. When the proprietor came in, he had a fit. It was after that I went into the perfumery business. The work is harder, but it is much less trying on one's nerves."—New Orleans Times-Democrat.

Men Who Live in Nests.

In the bushmen of Australia we find, perhaps, the lowest order of men that are known. They are so primitive that they do not know enough to build even the simplest forms of huts for shelter.

The nearest they could approach to it is to gather a lot of twigs and grass, and, taking them into a thicket or jungle, they build a nest for a home, much as does a bird. The nest is usually built large enough for the family, and if the latter be very numerous then the nests are of a very large size.

Into this place they all turn and snuggle and curl up together like so many kittens. Sometimes the foliage will grow together and for a sort of natural covering, but there is never any attempt at constructing a protection from the rain and storms, and it is a marvel how they endure them.

But, though the bushmen of Australia are the very lowest in the scale of ignorance, they possess a rare instinct, that equals that of many animals and is in its way as wonderful as man's reason. It is almost impossible for them to be lost. Even if they be led away from their home, blindfolded, for miles, when released they will unerringly turn in the right direction and make their way to their nest home, and, though there are all very similar, they never make a mistake.—St. Louis Globe-Democrat.

Saved by a Laugh.

A professional nurse at Leeds, England, was remarkably successful in the care of patients suffering from small-pox, diphtheria or pneumonia. In fact, she had never lost a patient with one of these complaints. Not long ago, however, she had a pneumonia case which was given up by the physician, much to the nurse's chagrin.

"He can't live through the night," said the doctor.

Sure enough, when the nurse went to give the sick man his medicine, he only shook his head. The distracted nurse saw her proud record about to be broken and she urged the patient to take his dose.

"No use," he murmured.

"Well, sir," said the nurse in despair, "you've got to take it! And if you die I'll kill you!"

Whereupon the patient began to laugh, took his medicine and got well.

Cheering Him Up.

"It very seldom happens," said Mr. Stormington Barnes, "that we are permitted to adopt the career for which we are ambitious in youth. I always wanted to be a comedian and make people laugh."

"Dear me," said the sympathetic young girl, "You ought not to be so disappointed. I'm sure. You make people laugh very often as it is."—Washington Star.

It is the best liniment I have ever known of.—J. A. Doogan, Alhambra, Cal. Thousands have been cured of rheumatism by this remedy. One application relieves the pain. For sale by Wm. Pinniger.

It has been demonstrated repeatedly in every State in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Wm. Pinniger.

RENO WILL CELEBRATE.

Preparations Being Made to Observe the Fourth.

The meeting of citizens held at the Wheelmen's Hall last evening for the purpose of discussing ways and means for celebrating Independence Day was attended by a goodly number of Reno's prominent citizens, including business men, educators and wheelmen. Plans were made and discussed in an informal manner as to their feasibility. The meeting was then called to order, Prof. Bray was elected chairman and J. M. Gray secretary. After some debate it was decided to appoint a finance committee of three to ascertain what support will be tendered by the townspeople, the finance committee to report before further plans were laid. W. W. Webster, Fred Vorn and A. M. Smith were accordingly appointed to constitute the committee and were instructed to report at a similar citizens meeting to be held in the same place Wednesday at 8 o'clock.

Grand Encampment.

The Grand Encampment, I. O. O. F., of Nevada, while in session yesterday afternoon, elected the following officers for the ensuing term:

Grand Patriarch, R. B. Davis, Dayton; Grand High Priest, W. W. Coffin, Dayton; Grand Senior Warden, A. L. Mank, Elko; Grand Scribe, Wm. Sutherland, Virginia; Grand Treasurer, J. J. Becker, Reno; Grand Representative, H. P. Brown, Reno; Grand Junior Warden, A. Nelson, Reno; Grand Trustees, John Lathrop, S. Jacobs and R. C. Leeper.

The remainder of the afternoon session was spent in the consideration of reports.

The Grand Lodge will meet to-day and elect officers for the present year.

The Gubernatorial Contest.

According to the Carson News in the Gubernatorial contest, McMillan has overcome Sadler's plurality of twenty-two and is serenely votes ahead. This was at the close of decisions upon the ballots objected to on both sides from the ballots of the counties called for by McMillan. The Court commenced yesterday to hear objections to ballots of counties called for by respondent, Sadler, and those of Lyon and Douglas were before the Court. Sadler has now to overcome the seventeen plurality of McMillan, as it now stands or lose the Governorship. The case will probably not be finally decided before the latter part of the week.

A Sanitarium.

A party of San Francisco physicians have visited the old Bowers' mansion in Washoe Valley and have taken samples of the warm water at the springs for analysis. If the test is satisfactory it is reported that the property will be placed in proper condition for the establishment of one of the most complete hospitals on the Coast. The warm springs at the mansion are the largest of any in the State.

Will Leave For Alaska.

The San Francisco Examiner says that Edward McGrath, a postal clerk, will leave for Alaska to make observations and submit a report to the postal authorities regarding necessary improvements on the mail route contracted for to St. Michael. Mr. McGrath is a brother of Paul McGrath of Mound House, and runs on the route between San Francisco and Ogden.

Athletic Grounds.

Hon. Francis G. Newlands, who is an enthusiastic member of the Reno Wheelmen, is very anxious to have the club erect an up-to-date club house and racing course on the southern bank of the Truckee, near the Newland residence. This project will surely be a success with an enterprising citizen like Mr. Newlands at the helm.

Measles.

A local physician estimates that at least two-thirds of the children of Reno, who had not previously experienced the ailment, have contracted the measles during the present season. The disease is epidemic and every town in the State appears to be similarly afflicted. It is in a mild form, however, and but one or two fatal cases have been reported by our State exchanges.

I. O. O. F. in Society.

The Odd Fellows were tendered a reception last night by the Rebekahs. An ample and well-gotten-up program comprised the evening's program.

A reception will be given to-night by Mr. and Mrs. Ben Pack. It was erroneously stated in Sunday's JOURNAL that this reception would be given by the Rebekahs.

A Favorable Change.

Elwin, the little son of Mr. and Mrs. A. J. Taylor, who has been wrestling with death for the last week, and whose case was considered hopeless, is improving. A favorable change has taken place. The fever has left him and the physicians think the chances are favorable for the little fellow's recovery.

Successful Operation.

An operation for appendicitis was performed on Dick Stoddard at Fabiola Hospital in Oakland on Sunday morning. His father received a telegram yesterday stating that the operation was a perfect success and the patient was getting along nicely.

Committee Meeting.

At a meeting of the Executive Committee of the State Agricultural Society held in this city yesterday afternoon the following business was transacted:

It was ordered that shares, the property of the Society, be not hereafter loaned or given into the custody of others without authority. The Committee holds that the Society has no right to loan or deliver into the custody of others any property that belongs to the Society.

The action of the Superintendent was approved regarding a pump he had procured for the use of the Society at the Fair Grounds.

The Superintendent was authorized to have repaired any work tools belonging to the Society.

All persons who use the race track or Fair Grounds must first obtain permission to do so from the Superintendent.

It was ordered that all persons now occupying the Fair Grounds be removed therefrom unless permission to remain be had by them or any of them from the Superintendent of the grounds and should any person continue to occupy after notice to quit, that such proceedings at law be instituted to remove them as may be required.

The Wheelmen of Reno are authorized to use the race track and Fair Grounds on July 4th.

It was recommended that a meeting of the Board of Directors of the State Agricultural Society be called for July 31st next at 12 o'clock noon.

Committee adjourned subject to call by the chairman.

Announcement.

I have just received a complete line of working and dress shirts of the latest patterns and styles, which I will sell at bedrock prices. I wish to call particular attention to a working shirt I am handling. It is undoubtedly the best working shirt that was ever sold on the Coast for the money. Call and examine the same.

I have all the latest patterns in golf and negligee shirts, in silk and madras cloths.

I am pleased to announce that I have secured the agency of the Wheeler overall, famous on this Coast as being the best fitting and most durable overall on the market. It is riveted, triple-sewed and made of the heaviest and best denim. Try a pair and be convinced.

ALFRED NELSON.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in the most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at S. J. Hodgkinson's Drug Store.

New Kodaks.

Mr. Pinniger has just received the finest assortment of Eastman Kodaks ever brought into Reno. He has all the very latest improvements. They vary in size from the miniature pocket affair to the largest size, and range in price from \$1 to \$30. The Eastman Kodak is acknowledged to be the best camera ever made for all round work, and nowhere in the State can be found such an elegant stock from which to select. Amateur photographers will do well to inspect this beautiful assortment before or after looking elsewhere. They will certainly find just what they want at Pinniger's Pharmacy.

Price 25 cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

The Plumas Eureka.

W. F. Johns, superintendent of the famous Plumas Eureka mine is spending a few days in Reno. Mr. Johns gave the JOURNAL some interesting reminiscences of the old mine. In 42 years it produced \$13,000,000 under several managements. The stockholders of the present company received \$2,800,000 in dividends. In the palmy days the mine employed from 185 to 325 men. Now about twenty tributers are going over the dump, removing pillars and serving the foot wall. The Plumas Eureka is a "has been."

Having a Great Run on Chamberlain's Cough Remedy.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief in a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet For sale by Wm. Pinniger.

Important Announcement.

Removal of S. Emrich's dry goods store to store next door south, on account of rebuilding a new front and other alterations in place of business presently occupied. The store being very much smaller, I am compelled to reduce my stock and will therefore allow 10 per cent discount on every dollar purchased for cash from 50 cents, upward until further notice. Will move on 17th of this month. S. EMRICH.

That Throbbing Headache.

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches.
